Interpreting data: pictograph

Use the pictograph to help you answer each question.

## Stella's Shoes

|            |  |
|------------|--|
| boots      |     |
| sandals    |    |
| slippers   |     |
| sneakers   |     |
| high heels |    |

- Of which kind of shoes does Stella have the most? \_\_\_\_\_  
How many does she have? \_\_\_\_\_
- Of which kind of shoes does Stella have the least? \_\_\_\_\_  
How many does she have? \_\_\_\_\_
- How many boots and high heels does Stella have altogether? \_\_\_\_\_
- How many more sneakers than slippers does Stella have? \_\_\_\_\_
- How many fewer high heels than boots does Stella have? \_\_\_\_\_

# Alphabet Soup

Interpreting data: bar graph

1. Cut apart the cards.
2. Read each card. Look at the graph on your other page. Sort the cards into two piles: true and false.
3. Write each letter in the correct bowl on your other page.
