

Making Reading fun at Southampton Middle School

On November 20 and 21, the Southampton Middle School Language Arts department joined forces with the school library to reward students who had met or exceeded their Accelerated Reader (AR) goals for the first grading period. Students were invited to attend AR parties to celebrate their achievements. Instead of being held after school, as in the past, the AR parties were held during the day so more students could participate. Students were able to play a variety of games, including corn hole, Dance Revolution, bingo, and guessing games. Students also had the opportunity to get their faces painted, were treated to snacks and drinks, and, of course, were able to read and take more AR tests to begin working towards their next goals.
